

Department of Toxic Substances Control
Hazardous Waste Management Program
Permitting Division
Presents

**Financial Assurance
for Corrective Action**

In response to a Petition pursuant to Government Code section 11340.6 for review of California Code of Regulations, title 22, sections 66264.101 and 66265.101, DTSC will conduct a half-day public workshop to discuss financial assurance for facilities subject to corrective action. The Petition addressed DTSC's imposition of financial assurance for corrective action after remedy selection. The Petition requested a regulatory change to require financial assurance at the beginning of the process based upon presumptive information regarding potential financial needs to address corrective action. Workshop topics include Federal/State statutes and regulations, U.S. EPA Policy on this subject, and implementation of financial assurance for cleanup activities by the State Water Resources Control Board and DTSC's Site Mitigation Program.

Comments regarding existing DTSC policy and potential changes may be submitted by interested parties at the workshop or in writing to DTSC by **March 15, 2003**.
